Cybersafety is an important issue for young students. By the time young children arrive at school some are already online or using digital technologies. They visit their favourite websites, play games and use social media or apps.

School Profile

Belmont Primary School recognises the need for students to be safe and responsible users of digital technologies. We believe that explicitly teaching students about safe and responsible online behaviours is essential, and is best taught in partnership with parents/guardians. We request that parents/guardians work with us and encourage this behaviour at home.

At Belmont Primary School we:

- Support the rights of all members of the school community to engage in and promote a safe, inclusive and supportive learning environment
- Have a Student Engagement Policy that clearly states our school's values and the expected standards of student behaviour, including actions and consequences for inappropriate behaviour
- Educate our students to be safe and responsible users of digital technologies
- Raise our students' awareness of issues such as online privacy and intellectual property including copyright
- Supervise students when using digital technologies for educational purposes
- Provide a filtered internet service but acknowledge that full protection from inappropriate content can never be guaranteed
- Respond to issues or incidents that have the potential to impact on the wellbeing of our students
- Know that some online activities are illegal and as such we are required to report this to the police
- Support parents/guardians to understand the importance of safe and responsible use of digital technologies, the potential issues that surround their use and strategies that they can implement at home to support their child
- Provide parents/guardians with a copy of this agreement.

Safe and Responsible Behaviour

Belmont Primary School is pleased to offer students access to the Internet and electronic mail (email) facilities. We strongly believe in the educational value of these electronic services and recognise their potential to support student learning. Belmont Primary School will make every effort to protect students from any misuses or abuses using telecommunications. Some materials found on the Internet may contain some items that are unsuitable, however we believe that the opportunities for students to collaborate, and the range of information resources, will exceed any disadvantages students may face in using the Internet or accessing email.

The responsibility for setting and conveying standards is a joint responsibility with families and the school. We believe that access is a privilege - not a right, as access involves responsibility. Please discuss the following guidelines for using the internet and email with your child and sign where indicated.

Guidelines

1. Be Polite - Netiquette

Always send messages that are polite.

2. Be responsible- Use appropriate, respectful language

When you are online you are representing Belmont Primary School.

3. Privacy

Don't include any personal information like your full name, home address or phone numbers. Let your teachers know if any person is asking for personal information.

4. Information

All the information accessed through the internet may not be accurate. Every effort will be made to ensure children develop skills to assist them in validating information.

5. Report

Students must report immediately to their teacher any matter that concerns them when using the internet, eg. Inappropriate content..

When using digital technologies I:

Communicate respectfully by thinking and checking that what I write or post is polite and respectful.

This means:

- ⇒ not using actions online to be mean to others. (This can include leaving someone out to make them feel bad)
- ⇒ not copying someone else's work or ideas from the internet and presenting them as my own.
- ⇒ never sending mean or bullying messages or passing them on, as this makes me part of the bullying

BELMONT PRIMARY SCHOOL

Acceptable User Agreement

Protect personal information by being aware that my full name, photo, birthday, address and phone number is personal information and not to be shared online.

This means:

- ⇒ protecting my friends' information in the same way
- ⇒ protecting my password and not sharing it with others
- ⇒ only joining a space online with my parent or teacher's guidance and permission
- ⇒ never answering or asking questions online that ask for my personal information.

Look after myself and others by thinking about what I share online.

This means:

- ⇒ never sharing my friends' full names, birthdays, school names, addresses and phone numbers because this is their personal information
- ⇒ speaking to a trusted adult if I see something that makes me feel upset or if I need help
- ⇒ speaking to a trusted adult if someone is unkind to me
- ⇒ speaking to a trusted adult if I know someone else is upset or scared
- ⇒ stopping to think about what I post or share online
- ⇒ using spaces or sites that are right for my age
- ⇒ immediately clicking out of or closing window of content I know is not appropriate and reporting this to my teacher or parent.

Student Declaration

Student Name

Class Teacher.....

When I use digital technologies I will communicate politely and respectfully:

This means that I will:

- ◆ not using actions online to be mean to others. (This can include leaving someone out to make them feel bad)
- ◆ not copying someone else's work or ideas from the internet and presenting them as my own.
- ◆ never sending mean or bullying messages or passing them on, as this makes me part of the bullying .

Protect personal information by being aware that my full name, photo, birthday, address and phone number is personal information and not to be shared online:

This means I will:

- ◆ protect my friends' information in the same way
- ◆ protect my password and not sharing it with others
- ◆ only joining a space online with my parent or teacher's guidance and permission
- ◆ never answering or asking questions online that require my personal information.

Look after myself and others.

This means I will:

- ◆ never sharing my friends' full names, birthdays, school names, addresses and phone numbers because this is their personal information
- ◆ speak to a trusted adult if I see something that makes me feel upset or if I need help
- ◆ speak to a trusted adult if someone is unkind to me
- ◆ speak to a trusted adult if I know someone else is upset or scared
- ◆ stop to think about what I post or share online
- ◆ use spaces or sites that are right for my age
- ◆ immediately click out of or closing window of content I know is not appropriate and promptly reporting this to my teacher or parent..

I am aware of the consequences for inappropriate behaviour and unacceptable use

Yes / No

I have been provided with a link to the Consequences for Inappropriate Behaviour document.

Yes / No

I understand and will follow the guidelines outlined above in conjunction with all aspects of the outlined policy. I understand that access to the internet and email facilities is a privilege. Inappropriate use will result in loss of that privilege, just like breaking any other school rule.
